## Curriculum vitae

---

**Date of birth:** 1997 - 09 - 22  
**Languages:** Swedish & English  
**Located in:** Lund, Scania, Sweden

### ABOUT ME

---

My name is Elmer Dellson, and I grew up in Lund. I'm an engineering student who is quick to learn, positive, social, and love learning new things; both practical skills and theoretical knowledge.

### ACADEMIC MERITS

---

Education	University/School	Period
Master of Science, Computer Science Engineering (Civilingenjör i Datateknik)	Lund University Faculty of Engineering	2017 -
Film Studies (60 credits)	Lund University	2016 - 2017
Upper Secondary School Technology program - Design & Product Development	Ljud- och Bildskolan Lund	2013 - 2016
Elementary School	Lunds Montessorigrundskola	2005 - 2013
Elementary School	Bilingual Montessori School of Lund	2003 - 2005

### PREVIOUS EMPLOYMENT

---

**BrainLit AB** 2019  
*Junior Development Engineer, Lund*

- Worked full time as developer at the health-tech company BrainLit at Medicon Village in Lund during the summer of 2019. I was involved in two projects: I implemented a user interface for a lighting system, including server communication and database handling; and I worked on an application for calculating how light spreads in a room, implementing the actual algorithm as well as interaction with UI and database. The languages I used here were Go, Javascript (React), HTML, CSS, and SQL. Version control was done with Git.

**Online Fullfilment** 2018  
*Salesman, Lund*

- Worked full time as a telephone salesman during the summer of 2018. I was assigned to several different projects, but was mainly selling electricity contracts for Göta Energi. I learned what it's like working full time, the importance of punctuality, working in a way that allows me to perform for an entire work day, and a lot about receiving feedback in order to be challenged and grow.

**Pepperminds AB** 2015 - 2016  
*Salesman, Malmö*

- Sold subscriptions to charity organizations in Malmö. During a work day I was stationed somewhere in the city and spoke to passersby to convince them to start making monthly donations to the charity *Sightsavers*. This job taught me a lot about talking to all different types of people while being forthcoming and convincing.

- Employed by the hour when the hospital needed to send out large mailings. Helped administrating and putting together large mail send-outs with important information to patients. This job taught me about working out the best way to tackle large tasks, following routines and working in teams.

## VOLUNTEER WORK

---

### Director

2018

*Kristianstads Nation, Lund*

- Directed several productions of student musical theater (spex) with the student musical theater association Krischanstaspääxet. The role of Director meant responsibility for all creative aspects of the production, organizing the script writing process, organizing the actors, as well as actual directing. The work taught me a lot about being directly responsible for a lot of people, and about being the person everyone turns to when they need something.

### Cinema Worker

2016 - 2017

*Biograf Kino, Lund*

- Worked at a smaller cinema in Lund, unpaid. Manned the register, checked tickets, kept the theater clean and tidy and was generally helpful wherever needed. The work taught me about handling money and payments, keeping a facility looking inviting, helping customers with any questions they might have, and being flexible and ready to take on whatever needs doing.

### Ticket Manager

2017

*Kristianstads Nation, Lund*

- Responsible for ticket sales and administration during a production of a student musical theater at Kristianstads Nation. This work taught me about work in a nonprofit organization, and managing payment information in spreadsheets.

## TECHNICAL SKILLS

---

### Programming Languages Software

Java, Go (golang), Javascript, SQL, Scala, C, Assembly, C#, et al.  
Adobe After Effects, Adobe Photoshop, Sony VEGAS, Microsoft Word,  
IntelliJ IDEA, Eclipse, L<sup>A</sup>T<sub>E</sub>X, et al.

## HOBBIES AND OTHER MERITS

---

Very involved in Lund University student life, especially musical theater (Jesperspexet and Krischanstaspääxet). I've directed, acted, produced, written scripts and worked with sound and lighting, among other roles of responsibility.

Practiced Taekwondo for 7 years. Achieved second degree Black Belt and competed in 4 major international championship where I won several categories.

I play the Piano.

Participated in an international peace camp for youths in Xi'an, China, through the organization CISV during a month of 2011. I learned a lot about cooperation, communication, and cultural differences and similarities between the 8 participating nations.
